

CHIEF ENGINEER FOR LOCAL ROAD

E. F. VAN HOESSEN ASSUMED DUTIES OF HIS OFFICE YESTERDAY.

E. F. Van Hoesen, chief engineer of the Tonopah and Goldfield road, arrived on Sunday night and entered upon his new duties yesterday. Mr. Van Hoesen succeeds W. B. Chapin, who resigned last summer and left here for Seattle. He came here first a week ago Sunday night, accompanied by his wife, but had to leave immediately in consequence of the health of Mrs. Van Hoesen. The latter's heart is affected and the high altitude was too much for her and she was obliged to go to California.

The new engineer comes here highly recommended. He comes from Albany, where he was with the Public Service Commission, before which he had been Deputy State Engineer. Previous to that he was with the New York Central, and before that with the Pittsburgh Railroad. He has been on the coast before, but this is his first experience in Nevada.

PERSONAL MENTION

Mr. and Mrs. S. L. Johnson of Denver are visitors in the city.

Judge J. P. O'Brien went over to Goldfield yesterday morning.

Jack Salsberry and Ray Baker left for the Ubehebe yesterday afternoon.

Don Gillies left yesterday for Los Angeles and will be away for several days.

D. R. Hofer, after a month's absence, returned from the coast yesterday.

Mrs. S. H. Gillette, who has been to Queen for nearly a month, returned on Saturday night.

Mrs. W. J. Sinclair is here from Berkeley, and is a guest of her brother, Attorney George Green.

S. A. Knapp, one of the old time mining men of Tonopah, arrived here from Berkeley yesterday morning.

James Forman left for Oakland on Sunday night, where he will remain for sometime to recruit his health.

Sheriff and Mrs. J. J. Owens returned yesterday morning from Cripple Creek, accompanied by their niece.

Cal H. Brounger, one of the principal owners in the Belmont and Midway mines, arrived in the city on Sunday.

Paul Tarpey of the Tarpey Machinery Company, returned from a business trip to Salt Lake early Sunday morning.

Miss Alice Hunsaker, for some time with Kirby, Lamb and Stoneham, has accepted a position with Nat Goodwin at Reno.

Harry McKnight, who has been sojourning at Jim Butler's ranch, returned on Saturday night and yesterday went over to Goldfield.

Henry Bartlett, editor and manager of the Round Mountain Nugget, came in from Round Mountain yesterday morning and went to Goldfield.

E. J. Collins, general manager of the Nevada Mines and Smelter Corporation, left yesterday morning for Kawich, and will return today.

George W. Baker, the well known California lawyer, returned from a trip to Ubehebe on Sunday morning, and left for the coast the same night.

John J. Mullin, secretary of the Spider Wasp Mining Company of Wonder, left last evening for Arizona, where he is interested in some copper properties.

W. C. Howard, the architect, who has finished the plans and specifications for the new hotel for Phil Blum at Winnemucca, left for the latter place last evening.

Colonel Bob Stewart, mayor of Sodaville, was one of the arrivals from "Sody" yesterday morning. Bob is looking one hundred per cent better than he did when he was here some months ago. He is feeling better, too.

Hon. George A. Bartlett returned on Sunday from an extensive trip to the coast. Since leaving here he has been twice in Carson, spent a week in Reno, several days in San Francisco, took a run to Santa Barbara, then to Los Angeles, and came home by the southern route. He says that of all the places he visited, San Francisco appealed to him the most strongly. He said that he was going to make it the text of a sermon to be preached to the knackers, and preach it to those whose hearts were down. San Francisco, he said, was showing to the world one of the greatest examples ever known of courage, ability, faith and endurance. It would be well, he thought, for the croakers of this country to take a page out of San Francisco's book.

Mothers with little children need no longer fear croup, colds or whooping cough. Bees Laxative Cough Syrup tastes good. It works off the cold through the bowels, clears the head. Guaranteed. Sold by Tonopah Drug Co.

CAL BROUGHER ON THE BELMONT

SAYS THE MINE IS LOOKING BETTER THAN EVER BEFORE.

"The Belmont mine is looking better today than I have ever seen it. There is plenty of ore, and it is of a very fine quality."

This is the way that Cal Brounger spoke after an inspection of the mine. Mr. Brounger is one of the largest, if not the largest individual owners in the Belmont. He did not say half what he might have said, and this was in deference to Frank Keith, general manager of the company, who is at present out of the city.

There have been rumors about the Belmont ever since her dividend was passed. The rumors, without a doubt, originated on Wall street, and have had a very disquieting effect on the price of the stock. The latter has gone down from more than three dollars a share to one dollar. Yesterday there was a stiffening up in the price, but for no more apparent reason than there was for the drop.

Mr. Brounger arrived here on Sunday morning and spent the better part of the day yesterday in the mine and at the mill at Millers. He was satisfied with both trips. Upon his return from the mill he was accosted for his opinion on both.

"I suppose that it is all right for me to talk of what I have seen," said he, "but I do not wish to in consequence of the absence of Mr. Keith."

"You have heard of the rumors in the East?" was suggested.

"About what?"

"It is reported that the ledge has pinched, and it is said that there is no ore in the mine."

"That's rot!" exclaimed Mr. Brounger, impatiently. "That's the worst kind of rot. The Belmont never looked better than she does today from the first time she began producing. And I want to tell you that I don't want to see a better looking mine."

Cal H. Brounger, one of the principal owners in the Belmont and Midway mines, arrived in the city on Sunday.

Paul Tarpey of the Tarpey Machinery Company, returned from a business trip to Salt Lake early Sunday morning.

Miss Alice Hunsaker, for some time with Kirby, Lamb and Stoneham, has accepted a position with Nat Goodwin at Reno.

Harry McKnight, who has been sojourning at Jim Butler's ranch, returned on Saturday night and yesterday went over to Goldfield.

Henry Bartlett, editor and manager of the Round Mountain Nugget, came in from Round Mountain yesterday morning and went to Goldfield.

E. J. Collins, general manager of the Nevada Mines and Smelter Corporation, left yesterday morning for Kawich, and will return today.

George W. Baker, the well known California lawyer, returned from a trip to Ubehebe on Sunday morning, and left for the coast the same night.

John J. Mullin, secretary of the Spider Wasp Mining Company of Wonder, left last evening for Arizona, where he is interested in some copper properties.

W. C. Howard, the architect, who has finished the plans and specifications for the new hotel for Phil Blum at Winnemucca, left for the latter place last evening.

Colonel Bob Stewart, mayor of Sodaville, was one of the arrivals from "Sody" yesterday morning. Bob is looking one hundred per cent better than he did when he was here some months ago. He is feeling better, too.

Hon. George A. Bartlett returned on Sunday from an extensive trip to the coast. Since leaving here he has been twice in Carson, spent a week in Reno, several days in San Francisco, took a run to Santa Barbara, then to Los Angeles, and came home by the southern route. He says that of all the places he visited, San Francisco appealed to him the most strongly. He said that he was going to make it the text of a sermon to be preached to the knackers, and preach it to those whose hearts were down. DELLA PRINGLE AT THE PAVILION

CROWDED HOUSES GREET THE CHARMING YOUNG ACTRESS.

"The Lighthouse Robbery" proved a very taking play to Tonopah, for the Pavilion theater was crowded to the benches last night, and there were times when the hilarity of some of the audience drowned the surging of the surf that was supposed to surge about the rocks of the lighthouse.

This was the second night of the Jolly Della Pringle company, the Jolly Della having appeared in "The Chorus Girl" on the night before. There was a jolly crowd on the first night, and this is no jolly. The lighthouse has to do with sundered hearts and sloppy rocks, light hearts and light pockets, brave fishermen with blue shirts, the sobbing of the winds and the roaring of the waves—yoi, yoi! There are sad scenes and glad scenes, and specialties sandwiched between them. There is a nasty old villain—a bad one—who is long on murder, and if he hadn't taken a shot at himself, and jobbed the police, the small boys would have got him with rocks on the outside.

The gay young comedian who plays with Jolly Della—the program does not give his name, so I can't—is capital. In fact, his fun making is his capital, and his announcement between acts of what is to follow on the next nights, was as good as any other part of the show. Miss Della Fo—Pringle, he informed us, has trunks of wardrobes, and she is going to appear in every one of them—the wardrobes, not the trunks. Tonight she will appear in the "Belle of Richmond," and nobody will be murdered. He said it; and also there will be a matinee on Saturday for the children and their mammas, and men can get in if they have the price. And one of the children will be presented with a camera; the one who can guess the closest to the number of people who are at the matinee. But he has to guess before he goes in, and leave the number, with his or her name on it, at the door.

But there will be great doing on Saturday night, for somebody will be the recipient of a diamond ring. Everybody who goes to the theater receives a number, and on Saturday night, the last night of the show, there is to be a drawing, and the ring will go to somebody. Don't you wish it was you?

Taken all in all, we are going to have a series of good entertainments this week, and Jolly Della will have a warm house each night. Anybody can see that after a crowd like that of last night.

Carriages at 10:45.

RAILROAD MEN GET SUNSHINE GROUP

GOLDFIELD, Oct. 21.—A syndicate composed of W. H. Paul, general agent of the Rio Grande route; George F. Knight, general agent of the Clark line; E. W. Gillette, traffic manager of the L. V. & T. railroad; Dr. E. H. Anthony, C. S. Stoble, a prominent banker, and C. J. McCarthy, a capitalist of Honolulu, has purchased from A. D. Binford the Sunshine group of claims at Gold Mountain. The property is in close proximity to the Great Western and Cameron mines and the purchase price is said to be in the neighborhood of \$25,000.

Several thousand dollars have already been expended on the claims and the development work thus far done indicates that this property is the making of a mine at no distant day. At a depth of about thirty feet in the incline shaft there is three feet of ore which will average \$89 per ton in gold. The vein is eight feet wide at a depth of thirty feet, and the ore body appears to be increasing in width with depth. Arrangements have been made to immediately sink the shaft to depth, funds for the purpose being already provided, and no stock is to be placed on the market at this time.

The personnel of this syndicate gives weight to the oft repeated assertion that the Clark road will build a branch line through that section, to Lida and the tributary country.

HIS WISH REALIZED.
"My dear," wrote the love-sick man, "oh, that I might feel again the press of your hand."

Three months later when the letter was read in court he realized that he had been writing for the press.—Detroit Free Press.

UBEHEBE IS IN SHIPPING CLASS

OFFICIALS ARE ON THE WAY TO LOOK AFTER THE INITIAL SHIPMENT.

Ubehebe is to be a shipper. John Salsberry, of the Ubehebe Mines and Smelter Company, has shipped ten thousand ore sacks to the company's mine, and yesterday, accompanied by his mine manager, Ray Baker, he left for Ubehebe to superintend the first shipment.

The copper is in the mines and the men of Ubehebe are busy taking it out. The present price of copper presents no obstacle to the shippers, for the reason that the ore is of such a high grade that the price of the metal might go still lower and Ubehebe ship at a profit.

Not only that, but there is considerable high grade gold ore in that wonderful country, and that pays to ship in any circumstance. About ten days ago there were a number of burros sent into Ubehebe. There are twenty-two of the little pack animals in all, and they are to be used to pack the ore down the mountain sides to the wagons in the valley below. All this is very picturesque and is the method of mining pursued in the Andes. But the picturesqueness will soon disappear, and give way to the most approved modern methods of mining, when the big tunnel is properly equipped.

Accompanying Messrs. Salsberry and Baker on the trip yesterday were Mr. Lindell, formerly of Manhattan, and Mrs. Kanter, wife of the superintendent of the company. Mr. Baker returned only Sunday morning with several other gentlemen, among them being George W. Baker, his father. Mr. Baker, while being one of the most prominent attorneys in the West, is an old Nevadan, and is accustomed to mines in their various degrees of development. He had heard much of the Ubehebe country, long before coming here on this trip, and was somewhat prepared for the sights he was to see, but the magnitude of the proposition and the plan of operations, he confessed, astounded him.

"Marvelous is the only word that I can find in my vocabulary to express my sentiments," said Mr. Baker. "I naturally expected to see something in the way of a copper mine when I started for the Ubehebe, but I never dreamed of such a showing. There is copper in every direction, and the plan of development has already proven, to my mind at any rate, the permanency of the mines. You see immense cropings on the mountain top, and you can find the ledge again down the mountain side, where the tunnels have been run. I did not take any assays, but I saw some stuff there which it was not necessary to assay. It was almost pure copper. And that was not here and there, either; it was in great bunches.

"There is a wonderful trail which winds along the mountain side, which you descend on burros. That ride gives you an idea of what they have in Ubehebe, for you see the open cuts that have been made, and you can get a good view of the wonderful ledges. Truly, it is a most fascinating trip, and a most fascinating country. I would not have missed the trip for a good deal. I predict for the country that they are going to have one of the greatest copper camps in the world. There never has been seen such a prospect at its stage of development in any country."

Inspired by the example of the Ubehebe Mines and Smelter Company, there are other owners getting busy in the district, and the camp is already beginning to take on a very lively appearance. Messrs. Smith and Watterson of the Inyo County bank have shipped in supplies and are about to begin operations on an extensive scale. Their property adjoins that of Mr. Salsberry and his associates.

NOTICE.

There will be a meeting of the State Board of Medical Examiners at Carson City, Nevada, on November 4th, 1907. S. L. LEE, Secretary.

RATTLING FIGHT IS ON THE TAPIS

MIKE (TWIN) SULLIVAN IS TO MEET FRANK FIELDS AT GOLDFIELD.

Railroad day in Goldfield, which occurs on the 28th, is to be observed in great old style, and the festive occasion is to be wound up by a rattling fight to the finish between Mike (Twin) Sullivan and Frank Fields. But little is known of Fields in this country, but he comes with the recommendation of Jim Jeffries to the effect that he is a hummer. He is a two-handed fighter and is scrapping all the time. He aided in the training of Jimmy Burns in his fight with Gans in Los Angeles, and put the doughty, protegee of Tommy Burns on queer street in one of their bouts.

It is a good card anyhow, and there should be a wicked fight. Everybody knows where the Michael Twin stands, and this will be for the championship of the world in the welter-weight class. Mike is training at the Merchants hotel, and is giving a very good account of himself. He had on three men yesterday and did seven rounds with them. He went through them all and was in the best of condition at the end. He took on Kid Scaler for the first, and that did the Kid. Then there were three rattling rounds with Burns and three hurricane rounds with Konkel. Sullivan was just getting warmed up, when he had to desist.

Fields, who is training at the People's theater, had on Kid Husbands for four rounds and Tom Sullivan for the same number. He did, in addition, his indoor work and his outdoor sprinting. In the betting Sullivan is on the long end at 10 to 9. There is \$250 of Peter Jackson's money in Goldfield, but the dusky gladiator wants the odds down to 10 to 8 before he will put up.

The fight will be held under the auspices of the Monte Carlo Club, and will be held at the Hippodrome. There will be a preliminary at 8:40, and the main event will begin at 9 o'clock. And 9 o'clock will be sixty minutes after eight. There will be no delay, no waiting. It looks like very good sport for the windup of Railroad day.

MISCELLANEOUS

\$700 WILL BUY a half interest in good paying business; saloon, short order, sandwiches and coffee for train trade; is a sure winner. For particulars address Bonanza. 10-17-6t.

FOR SALE—Reception saloon; bar, back bar and bar fixtures, piano, safe, glassware and furniture; also stock liquors. Enquire at office of Dennis & Murphy, McKim buildg. 7-19-tf.
